JOIN US!

It's completely free.

- UMS (Young People with DLD) is an association for people aged 13 to 30 with developmental language disorders.
- UMS aims to bring young people together.
- We welcome everyone. We don't care about your religion, ethnicity, sexual orientation or political affiliation.
- We exercise a common voice in the public debate.

We have fun together!

- The association arranges shared activities at various places around the country where we can meet, exchange experiences and have fun together.

Political influence

- Together we can improve the conditions for people who have language disorders.
- By being seen in the newspapers and social media, and by lobbying politicians we can raise awareness about DLD.
